Introducing the Decora® CFL Slide Dimmer

The Industry's First Slide Dimmer Designed for Use with the Widest Variety of Dimmable CFLs

Now your customers can enjoy the energy-saving benefits of dimmable compact fluorescent lamps, but with improved ambiance and lighting options. The Decora CFL Slide Dimmer optimizes the performance of dimmable CFLs and works with the widest range of dimmable CFLs. Innovative and versatile, the preset dimmer in auto mode will detect whether a lamp is an incandescent or dimmable CFL, determine low-end dimming capabilities and adjust the dimmer range accordingly. It outperforms incandescent dimmers when controlling dimmable CFLs.

A breakthrough product, the CFL Slide Dimmer replaces a standard switch, uses standard wiring and has a shallow depth for easy installation. Finally, a CFL dimmer that really controls dimmable CFLs.

Help fulfill the **Christmas Dreams** of our nations neediest **children!**

This holiday season Colonial Electric Supply, Bright Light Design Center, & Annapolis Lighting will be collecting toy donations for the Toys for Tots program.

Be a part of the giving.

Simply drop off unwrapped toys by December 15th and you will make a child's day a Happy Holiday!
